

Bruton Village Walk 1 Mile Accessible

There are two options for this walk, a slightly shorter route takes you alongside some of the river Brue, the other keeps entirely to the pavements and follows the one way system through the centre of the village.

On entering Bruton stay on the one way system and follow the road A371 Shepton Mallet Road/River Brue Church Bridge. This is the start of the circuit. Parking is allowed on the one way system, there are additional car parks in Bruton, the nearest being Packhorse Bridge (BA10 0EB). **Starting point Kings Bruton School.**

1. Once parked follow the road along past Kings Bruton School, keep right, at the next junction turn right, follow road around
2. Take the next right (Mill Lane) and continue all along this road through Lower Backway along to Bow Bridge, which once crossed will bring you back onto the one way system near St Mary's Street junction.

For the longer walk:

Continue along the main road through the centre of Bruton with its many historic buildings and many shops. At the junction turn right and follow the road around to the St Mary's junction and into the one way system again.
